Tuesday Night

Harold -

I can't find any real to real tape recorders at all except the ones that I sent you - and my opinion also is the Akai, and of course can't argue with buying it locally.

I am writing this late at night since I just got your letter at the P.O. Box so tomorrow I will price various tapes and get you the price lists.

If you can type up a copy, that I could sign, of the Freedom of Information form, I will be happy to sign it and get the ball rolling but I know nothing about

the procedure for doing so.

Agree with you about looking up family into conspiracy!

Sometime if I'm ever near your place again - or if you are in St. L. - I'll give you my viewpoints toward Mark Lane!! Don't want to put too much in writing and not very much on Ma Bell!!

I've been very busy trying to find a saleable item to sell over Xmas to make some money but having a rough time.

Seems a lot of my past customers are afraid because of publicity with Select Committee!

I'll send you price on reel to reel tapes Thanks

Allen

— forgot to mention - I talked to James Wolf with the Committee and he said that the interview in N.Y.C. (recorded) was over 180 pages transcribed!! (copies of) Jerry Policoff has the tapes. It's almost impossible for me to copy them — once I get them.

Ellen
